# Decade Long Tradition

At City Telecom, Management Teamwork is essential to our past and future success. Over a decade, every 12-18 months, through good and bad economic cycles, we have made a tradition of having a management offsite to build teamwork.

This year, we invited our top 71 Management Talents for this 7-day trip to Germany.

Table of Past City Telecom Offsites

	Year	Location
1	1999	Gold Coast, Australia
2	2001	Star Cruises
3	2002	Sanya, China
4	2003	Zhuhai, China & Macau
5	2004	Qingdao, China
6	2005	Zhuhai, China
7	2006	Bangkok, Thailand
8	2006	Singapore
9	2009	Japan
10	2010	Germany

# Decade Long Tradition

Expose our Talents to “Out of the Box” experiences, beyond what we are normally exposed to in Hong Kong and in our normal daily business or holiday travels. The idea, is to push ourselves outside our comfort zones, so that we are more capable of doing so when we return to our working environment.

Wine Tasting in Vineyard

Camping in Black Forrest

Concentration Camp

Cycling

Harley Davidson Festival

Beer Factory Visit

		(b) Visit Colosseum / Pantheon/ Vatican/ Trevi Fountain / Spanish Steps	Rome

# Day 1: Beer Factory & Cycling

We enjoyed a WOW experience via doing these extra-ordinary activities. Our talents are always energetic and their ever-running engines are fully mobilized no matter they are in Germany or in Hong Kong.

# Day 2: Wine Tasting & Harley Davidson Motorbike Festival

# Day 3: Canoeing Tour

We never give up. We are ever a group of aggressive youth. Highly competitive social canoeing.

# Day 4: Porsche Factory Visit

Whilst sport cars may not be personally appealing to all our management Talents, we should be interested in Porsche as a state-of-the-art, world-class company with a proven track record of maintaining premium positioning

# Day 5: Concentration Camp Visit, followed by Camping at the Black Forreest

Eye opening visit to  
Dachau Concentration  
Camp.

A valuable change to develop closer bonding, teamwork and relationship with different departments outside the office environment.

# Day 6: Hiking, Farm Visit, Boat Ride, Bungee Trampoline, Segway Racing & E-bike

# Day 6: 500-Year Old Cheese Factory Visit

We visited a farm which has been with the same family for the past 500 years. In the corporate world, we consider 1 year planning as long term. It was extremely eye opening to hear the farmer talk about cutting 80-year old trees that his grandfather planted and then seeding new trees for his grandchildren to harvest.

# Reflections

- Precise [Porsche] factory setup and production line offer quality vehicle for attractive profit, although it is a different industry, we should learn the spirit of it.
- “We are not McDonald” ~ we heard this from a restaurant when we urged for dishes. It reminded us the importance of a good customer service.
- It looked like an easy job, but we eventually learnt a lesson from the Canoeing Tour. The better team work we are, the more effective.

# Reflections

Anthony Lam  
Corporate –  
Major Corporate Team

- Have an enjoyable time with all of the colleagues and deeper understanding through sincere communication, which avail for us to build up positive relationship and trust among the colleagues.
- I treasure the wild camp and wine tasting much that I can experience the culture and literacy of Germany.
- During the canoeing event, the skillful operation of the Helmsman inspired me that a good management is like a good helmsman that can help to lead the company towards a right direction and acquire the goal more effectively.
