

For Immediate Release

HKBN awarded 2009 HKMA Quality Award (Bronze) First Telco to be recognized in Quality Management

(Hong Kong, 7 July 2009) Hong Kong Broadband Network Limited ("HKBN") is pleased to accept the 2009 Hong Kong Management Association (HKMA) Quality Award – Bronze last night at a ceremonial dinner (please see attached photos), and is proud to be the first Telco in Hong Kong to receive such recognition.

The HKMA Quality Award was first launched in 1991 by The Hong Kong Management Association. With this annual Award, HKMA seeks not just to reward, but also bring public recognition to those organizations that have achieved outstanding standards of quality and made a lasting commitment to the process of quality management. Other winners this year include Pfizer Corporation Hong Kong Limited (Gold Award), Hewlett-Packard HK SAR Ltd., Technology Services (Silver Award) and Hong Thai Travel Services Limited (Silver Award).

Mr. William Yeung, Chief Executive Officer of HKBN said: "This recognition comes at a perfect time to us right after our recent results announcement, which shows significant growth in profits, revenue and subscription numbers. Our unique culture and distinct values have taken us from a small company to become the second largest broadband service provider in Hong Kong today. Being the first telecommunications operator to win this award, we hope it would demonstrate how quality management can still be possible even in face of vicious competition, where through innovation and commitment to change, world class services can always be delivered to our customers."
